

RECOMMENDED HIGH SCHOOL SPORT SCHEDULE

To best accommodate the high school's block schedule, we recommend scheduling your POD classes so you aren't missing a lot of class time. Follow the pathway that best fits which science and geography classes you want. Depending on the sport and the semester, you will likely be required to drop 2 periods at FHMS and take classes at the high school, if they have seats available in those classes. Biology is offered there and is an easy switch, as well as Seminary/Released Time. We are able to drop your 6th and 7th periods at FHMS and try enrolling you in classes at the high school. You will miss part of your 4th period every other week on Thursdays.
